

MaxLift 240-E ⚡[©]

All electric bin lifter

Electric-Powered: Our bin lifter runs entirely on electricity, reducing hydraulic oil spills and promoting a cleaner environment. Embrace the power of green technology!

Smooth and Efficient: With cutting-edge engineering, our lifter effortlessly raises and empties bins, streamlining the waste collection processes. Say goodbye to noisy problematic hydraulics and hello to efficiency!

Safety First: Our lifter prioritizes safety with all of the required Australian safety standards making it fully compliant. Rest assured knowing that your team is protected during every lift.
